

# RIOT OF THE ROCKETMEN

~Event Guide~

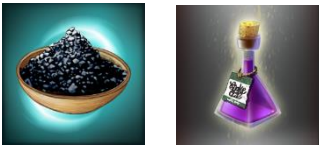

### Quick Overview

Required level:	20-100
Duration:	1st of January 00:00 – 21 <sup>st</sup> of January 23:59 CEST

### Event summary:

Jullov did it again. This time, he locked his uncle out of the laboratory and caused the machines there to malfunction. Save the Queen’s firework festival and stop the chaos!

### Firework Festival!

Talk with Professor Jullov in Kingshill, to receive the Hostile Acquisition quest. For the first part of it, you must collect 116 Gun Powder from Rocketmen monsters throughout Eternal Grove, Fortress Teganswall, Eternal Watch, Temple Sector, The Gleaming Mountains, Frog Delta River and Spiky Valley to complete (the hordes locations are marked on the mini-map upon spawning, 8 locations in total per each map, each horde spawns one after the other). After completing the quest, you will unlock the entry door for Professor Jullov’s Laboratory, where you must defeat all four Machine Babies and open the crates in the middle of the map to bring back the royal fireworks. Prepare a handful of Professor Jullov’s Oiltastic Mixture, as it is required to enter its Laboratory, obtained once again from the Rocketmen monsters.

### Event Progress Bars:

## The Professor Jullov's Laboratory:

Enter Professor Jullov's Laboratory and bring the royal fireworks back!

Defeat his Machine Babies and protect the fireworks crates from being destroyed by Boomb-inators

Use the levers next to the crates to repair them, in case they have been damaged by the Boomb-inators

**Note:** Every fireworks crate that is not destroyed until all Machine Babies are defeated, grants you more royal fireworks at the end. Keep in mind that the Machine Babies do respawn after certain amount of time, if the next one has not been defeated on time.

Make sure to have enough of Professor Jullov’s Oiltastic Mixture to be able to use the trap levers. You will need 20 mixtures to turn on all of the traps.

If a machine has been destroyed the next one will be activated immediately.

Machine #	Delay - 1 Player	Delay - 2 Players	Delay - 3 Players	Delay - 4 Players	Delay - 5 Players
I	30	30	30	30	30
II	210	150	120	90	35
III	390	330	300	270	40
IV	580	520	490	460	45

Amount of Royal Firework dropped from the Unlocked Firework Crates and Pile of Royal Firework:

Difficulty	Normal	Painful	Excruciating	Fatal	Infernal	Merciless	Bloodshed
Royal Firework from Unlocked Firework Crate	5	10	15	22	35	58	115
Royal Firework from Pile of Royal Firework	20	40	65	90	130	230	500

Royal Firework

Obtained from the Unlocked Firework Crates and Pile of Royal Firework in Professor Jullov’s Laboratory, as well as from some of the Hub NPC traders.

Professor Jullov’s Oiltastic Mixture

Obtained as a drop from Monsters in the above mentioned Dracanian dungeons, as well from some of the Hub NPC traders.
